Experience

California State University, Fullerton
Graduate Teaching Assistant
August 2018 - May 2019 (10 months)
Fullerton, California

- Provide assistance to the faculty and Department Chair in searching for, collecting, and arranging data and literature.
- Help students facing difficulty in working with MS Excel.
- Conducting supplemental instruction classes for the undergraduates at Cal State to help them in Statistics for topics like Hypothesis Testing, Linear Regression, etc.
- Assist faculty with evaluating student work, examinations, and other duties as assigned.
- Assist in the departmental office by providing guidance and information.

Cognizant

Programmer Analyst

September 2014 - July 2017 (2 years 11 months)

Pune Area, India

- Managed and guided a team of four to deliver the 'project initiation' module.
- Performed tasks like requirement analysis, development, and implementation of code and writing SQL queries and fetching required data from the database.
- Utilized Salesforce to develop business solutions and spreadsheets for managing the project's master data.
- Prepared and maintained documentation of the various business proposals using MS Word.
- Created weekly status reports keeping track of tasks assigned to team members.
- Communicated with team members for updates regarding the daily activities via emails and meetings.
- Awarded with 'Campus Associate of the Quarter' for my contributions to this project.
