Experience

Techamps IT Solutions
Data Analyst
January 2018 - April 2018 (4 months)
Mumbai Area, India

• Analyzed different data sources (e.g., customer attributes, digital activity, research surveys), and created custom SQL queries to extract the data from these sources to uncover key patterns to drive strategic decisions.
• Collaborated with database engineers to implement ETL process, wrote and optimized SQL queries for data extraction and merging from SQL server database.
• Delivered an interactive dashboard in tableau for budgeting team to make informed decisions about number of hires needed for each quarter to meet the customer demands effectively.
• Delivered high-quality purpose-driven presentation of recommendations to the higher management

Envecon
Web Development Intern
January 2017 - March 2017 (3 months)
Mumbai Area, India

• Maintaining and optimizing website performance that increased the website speed by 14% and implementing an SEO campaign backed by Google APIs (Google analytics, Google Sheets, Google search console).

• Exercised effective problem-solving skills, which yielded in 100% reduction of mentor's input for completion of assigned projects
